WEEKLY ACTIVITIES & STATUS REPORT FOR THE DD/ICS--28 May 1986

CIPC Organizational Activities

- PPS has received approximately 50 percent of the responses to the SDIO's requirements. In an effort to expedite our review of the responses for inclusion in our study as appropriate, [] has requested from [] a copy of the responses received to date. However, George was not receptive to the request--he has to "think about it."

- As you very well know, it is imperative that the working group receive these comments expeditiously in order to complete our study in a timely manner.

[Redacted]

- Steve has informed Jay Taylor, State, that Ambassador Gleysteen's services will not be required because the North Korea study has been placed on hold, pending the results of an NIO initiated effort to develop background information on Korean political/economic warning.

[Redacted]

- We are fine tuning the China Follow-up Report preparatory for a CIPC meeting on 30 June.

News & World Report). CIA provided spokesman from Personnel [redacted]
PAO (George Lauder), Comptroller (Leo Hazelwood), OGI [redacted] and
DDS&T (R. E. Hineman). The discussions of budgetary, media, and
Congressional Affairs were excellent. Mr. Hineman stressed the need for
the various directorates to work together. He seemed particularly keen on
task forces drawn from all directorates, citing counterterrorism and
mobile missiles as good candidates for such an approach.
